

Saroj Salil

Date of birth: 20/01/2000 | Gender: Male | Nationality: Indian | Phone: (+91) 9625475969 (Mobile) | Email address: sarojsalil5@gmail.com , sarojsalil12@gmail.com | LinkedIn: https://www.linkedin.com/in/saroj-salil-493102147/ Personal website: sarojsalil1.github.io/saroj-salil.github.io/ | Whatsapp Messenger: 9625475969 | Address: flat no 101 b block sai shardha enclave new dr colony jagjeevan nagar saraidhela Dhanbad , saraidhela Dhanbad jharkhand India , 826001, Dhanbad, India (Home)

About me

Dedicated to leveraging my expertise in environmental science and climate change, with a focus on weather patterns in regions like the Himalayas, to drive sustainable solutions and community resilience. Committed to applying my knowledge and skills to address pressing environmental challenges, fostering a healthier planet through impactful, science-driven actions.

Work experience

Research Assitant | IIT ISM DHANBAD | 01/07/2026 - Current | DHANBAD

Working Project "Impact Assessment of PMKVY

on Skill Acquisition and Entrepreneurial Development among Tribal Youth in Jharkhand: Systemic Barriers and Pathways",

Gis Engineer | RMSI Private Limited | 31/07/2025 - Current | Delhi, India

In the NSG project which is based in middle East , my role primarily involves satellite interpretation of various thematic layers such as hydrography, vegetation, agriculture, transportation and physiography.i am also responsible for performing quality control on the data received from the production team I, analysing it thoroughly, providing feedback and making necessary corrections.

Intern at atmopsheric science group | National Center for Earth Science Studies Ministry of Earth Science Government of India | 01/02/2024 - 31/05/2024 | Thiruvananthapuram, Kerala, India

During this internship, I research on theme climate variability and more specifically rainfall variability analyzing the impact of climate variability across India from the year 1901 to 2022. This analysis encompasses various regions of India such as the West Coast, north India, etc. To conduct this research I utilized IMD gridded data with 0.25 degree and 1 degree, cpc gpcc, and era5. The purpose of the study was to comprehensively understand how climate variability influenced rainfall patterns in different geographical regions of India over the past century. By examining the long-term data through this research I identified trends fluctuations and anomalies in rainfall thereby gaining an idea of the broader impact of climate change on India's diverse ecosystem and socio-economic activists. This research involved rigorous data analysis techniques such as statistical modeling, trend analysis, and displaying spatial mapping to discern patterns and variations in rainfall across the specified regions. By examining these variations in climate such as temperature, precipitation etc. This reflects the driver behind rainfall variability and its implications for agriculture, water resources, and ecosystems in each region. Furthermore, by comparing data from different resolutions 0.25 degree and 1 degree I understand the utility of finner resolution data in capturing localized variations in rainfall pattern compared to coarser resolution data. This comparative analysis help us to understand how the spatial distributions and intensity of rainfall variability across India apart from that I also used other datasets such as CRU CPC GPCC and era5 to analyze the intra-annual variability of rainfall from different datasets..!

Field Investigator | CV Raman Global University | 17/11/2023 - 31/01/2024 | Bhubaneswar, India

During the Indian Council of Social Science Research short-term empirical research project titled Survey of National Education Policy 2020 implementation using Al - ML Techniques a study of Odisha and Jharkhand. I evaluated the implementation of the new education policy in technical institutions across Jharkhand and Odisha using Al and ML I analyzed data through field surveys in all institutions in Jharkhand and coordinated with all people of institutions like VC of the University director of IIT and student and later analyzed these data using a statistical tool like IBM and EXCEL.

Education & Training

HIGH School | Kv Dipatoli | 2016 - 2018 | India

Field(s) of study: Arts and humanities | **Final grade:** 81.8%

BA geography hons | university of Delhi | 2018 - 2021 | India

Field(s) of study: Arts and humanities | **Final grade:** 7.878 CGPA | **Website:** http://www.du.ac.in/

MA geography hons | university of Mumbai | 2021 - 2023 | mumbai, India

Field(s) of study: Arts and humanities | **Final grade:** 8.7 cgpi | **Thesis:** Impact of climate change on rainfall variability on Bhima basin | **Website:** https://mu.ac.in/

PG Diploma in Applied Geoinformatics | Jadavpur University at CAD Center | 07/2024 - 07/2025 | Kolkata , India

Final grade: 78.80% | **Thesis:** Urban Heat Island Dynamics: Spatial Analysis and Predictive Simulation Modelling | **Website:** https://www.cadcentreju.org/

Skills

Microsoft office | arcgis | adobe photoshop | adobe light | gis | Adobe Illustrator | Stock Analysis | ARCSWAT | IBM SPSS\ | Xlstat | spyder | python | Climate Data Operators | GrADS | SQL | Erdas Imagine | Auto CAD | DBMS | SNAP | Tera sync | Arcgis pro | GNSS | QGIS | FLUS | DGPS

Publications

Assessing the impact sea level rise on coastal Infrastructure using Geospatial techniques

2026. elsevier.

- Chapter on topic Assessing the impact sea level rise on coastal Infrastructure using Geospatial techniques in book Harnessing Earth Observation for Coastal Engineerin here the description..https://doi.org/10.1016/B978-0-443-27590-6.00009-9

- Knowledge, Attitudes, and Practices Related to Dog-Mediated Rabies and Dog Bites in India: A Systematic Review Highlighting Behavioural and Implementation Gaps (2015–2024) (Under Review)
-
- Rainfall Trends in the Bhima Basin, India: Testing the Assumption of a Climate-Driven Decline under review

Conferences & Seminars

Participations

Participated as a Student volunteer in Asia Oceania Geosciences Society Conference 2025 and worked as Technical Assistant from 27/072025 to 31/7/2025 at Singapore

Participated in one day sensitization program on drug abuse organized by Ministry of Social Justice and Empowerment, NISD AND NSS UNIT ARSD COLLEGE at ARSD College

Participated in MTNL Perfect Health Mela organized by Heart Care Foundation of India and Delhi Govt.Write here the description... at Talkatora Stadium

Attended Geospatial Modelling for Watershed Management Certificate Course conducted by IIRS And ISRO in year 2021

Climate Justice and Climate Law: South-North Perspectives Certificate Course conducted by NLU-Delhi & SOAS Joint Summer School in year 2023

Digital Transformation, An India Story organized by Carnegie India, g20 meta India in year 2023

youth vision for circular economy organized by Indian youth climate network , EU-RE and collaboration with IIT Delhi in year 2023

for successfully completing the virtual short course on Monitoring the El Niño Southern Oscillation and its Impacts on the Weather

18, 25, 27 June and 16 July 2024

Gis for Climate Action by mooc Esri

Creative Works

Achievement | 2019

Received appreciation from FM Fever Radio 104.0 and Gautam Gambhir Member of Parliament East Delhi Constituency for the innovative idea of not to single use plastic to beat plastic pollution i.e. using a steel cutlery which we have been carrying all the time to have lunch and refreshment to reduce and reuse the use Featured in Punjab Keshri News Paper for outstanding work in cleanliness drive in DDT Flats 2) of single use plastics for Swacch Bharat Se Swasth Bharat , the objective was to to bring a behavioral change of the people because its the behavior which are causing more damage to the environment.

Volunteering

National service scheme | 2018 - 2020 | Delhi

Participated in Kerala relief flood drive and collected 21000/- and received appreciation letter from Prime Minister Office

Participated in plantation drive in college

Participated in seven days special camp of NSS

Participated in Khelo India which was organized under Govt. Scheme of Ministry of Youth Affairs and Sports

Participated in cleanliness drive in Sheikh Sarai

Participated in panel discussion on topic role of youth in road safety organized by Indian Road Safety campaign held at IIT Delhi

Participated in Swacchta hi Seva in college

Participated in cloth donation drive in slum near Okhla, Delhi

Communication and interpersonal skills

skill

I possess excellent verbal and written communication skills. Additionally, I have strong leadership, teamwork, and pressure-handling abilities, along with effective speaking and team management skills.
